

WHERE SERVICE MATTERS MOST

PRODUCT GUIDANCE SHEET

CLEAVER

HEAVY DUTY DEGREASER & DECARBONISER

A powerful odourless bactericidal surface and equipment degreaser/carbon remover formulated to remove the heaviest burnt on grease and organic soils within commercial catering operations where extra chemical energy is required. Ideal for use on kitchen hoods/filters, fat fryer surroundings, ovens and grills. **Caution:** Not recommended for use on ceramic hobs, aluminium or galvanised surfaces.

- **Compliant to BS EN 1276 standard for biocidal efficacy at a dilution of 20:1 and a contact time of 5 minutes.**

Product Name: CLEAVER
Description: Heavy duty degreaser & decarboniser
Pack Size(s): 2x5lt, 4x5lt, 25lt
Pallet Size(s): 60, 30, 30
Product Code(s): 706103, 706104, 706105

HOW TO USE

It must be diluted correctly with water to prepare effective cleaning solutions. Product is dispensed via a standard 5lt pelican pump, manual wall mounted bottle/bucket pump or via an automatic chemical/water mixing station available from Arpal Gulf on a free-on-loan agreement basis.

Surface Degreasing: For bottle cleaning solutions, dilute with one plunge of a 5lt pelican/wall mounted manual pump per 600ml labelled trigger spray. It can be used as part of a two-stage cleaning and disinfection process. Remove gross debris

and spray onto the surface or equipment. Depending on the degree of soiling allow sufficient contact time. Agitate heavily soiled areas if necessary, then wipe away with a clean cloth or absorbent paper to leave a fresh clean surface.

Carbon Removal: Depending on the extent of carbon build up, add 2-4 plunges of dispenser per 600ml bottle and spray onto a warm surface. Allow a few minutes contact time and agitate with a cloth or scouring pad before rinsing well with fresh water.

Deep Fat Fryers: Remove oil from fryer and depending on the capacity, add 100mls per litre of water. Bring to the boil for 10 minutes. Carefully drain the solution, rinse thoroughly with clean water and dry with a cloth or paper towel before re-using.

Combi Ovens: Use undiluted for ovens with integral feed cleaning systems; dosed automatically during the oven's cleaning programme in accordance with the oven manufacturer's guidelines.

SAFETY ADVICE

DANGER May be corrosive to metals. Causes severe skin burns and eye damage. Harmful to aquatic life with long lasting effects. Wear protective gloves, protective clothing and eye or face protection. IF ON SKIN (or hair): Remove immediately all contaminated clothing. Rinse skin with water. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/physician. Absorb spillage to avoid material damage.

For further detailed information on this product please refer to the Safety Data Sheet.

FOR PROFESSIONAL USE ONLY

COSHH STATEMENT

COSHH is a law that requires all employers to take steps to control substances (chemicals) that may cause harm to employees, contractors and visitors to the workplace. Every work environment will be different in terms of the hazardous chemicals that are present, and how these are used, and individual assessments may be necessary to consider how chemicals can be handled and stored safely, in addition to ensuring that appropriate PPE and training is provided for employees. Product SDS and Product Guidance Sheets are intended to help when carrying out a COSHH assessment, however if further advice is needed with regard to specific issues in your work environment we are happy to provide advice.
